The Thirteenth Sunday in Ordinary Time June 29, 2008

Peter and Paul are wonderful examples of discipleship. While they had their virtues they also had some serious faults. Peter was always putting his foot in his mouth and even denied Jesus. Paul was so committed to the Law that he persecuted Jesus' followers. Yet both were used by God to spread the Good News and God can use us in this mission too.

I sought the Lord, and he answered me.
- Psalm 34:4

Hospitality

An Important Form of Stewardship

We are in **urgent** need of hosts for Sunday Hospitality. It seems to be especially difficult to find hosts for the summer months. Isn't it your turn? (You can find the sign-up sheet located on or near the hospitality table.) For further information, call Elfrida, 484-9809. Thank you for your support.

St. Joseph's Is Online!

Our website has recently been updated and redesigned with easier navigation and more information. The site now has the schedules for Eucharistic Ministers, Lectors and Altar Servers, contact information for the parish staff, links to the weekly bulletins, and podcasts of the weekly readings and homilies. We've recently completed the first year of podcasting and we can count over 2600 downloads and some interesting stories, such as the vacationers who were drawn to St. Joseph's by happening upon the podcast as well as parishioners who have moved from the area, but like to keep in touch with the parish. St. Joseph's podcasts can either be found through the bulletin links at www.stjchurch.org or from iTunes by searching for Spreckels and then following the podcast links.

The parish office will be closed on Friday, July 4 in observance of Independence Day.

Wow, Power Lab was a BLAST! The children of the parish enjoyed themselves as they discovered Jesus' miraculous power through interactive Bible experiences, cool science experiments, crafts and games.

Many thanks to all the volunteers who made this event an amazing success! Thank you especially to our lab crew and station leaders for adding an electrical charge to our Power lab!
